

Riyadh City Overview 2024

About Our Company

Bringing our clients closer to their customers through creativity and innovation via the latest outdoor technologies.

From humble beginnings, our journey began in the early 1990's with the establishment of Saudi Signs Media (SSM) in Jeddah city.

Three decades on, Saudi Signs Media has become a leading Out-of-Home (OOH) advertising company regionally recognized by both local and international brands for its wide variety of digital and static products across the kingdom.

With the considerable changes in technology and growing brand needs, Saudi Signs Media is committed to providing the market with the latest advancement in out-of-home products and service levels required for business efficiency and success.

State of the art LED panels, premium locations, large creative canvases, and urban redesign serving the public's interest are a few of many attributes we provide the local market.

What We Stand For

Vision

Bring our clients closer to their customers through creativity and innovation via the latest outdoor technologies.

Mission

To become the region's outdoor advertising industry leader providing businesses with innovative solutions and products that inspire engagement and connectivity.

Values

Management and personnel are adamant practitioners of the values we hold dear.

- Integrity and ethical business practices
- Honesty and fairness to one another and partners
- Accountability for our actions
- Quality & Excellence from customer service and product offering
- Customer Centricity by delivering on all client requirements
- Progress and Drive to improve workflow efficiencies and all aspects of the business

Partnering With A Market Leader

Success built solely on a transactional relation is not the path we walk or encourage. It's the journey of long-term partnerships that we aspire too and have purposed our values.

Product Solutions

Our state-of-the-art selection of formats caters for all advertisers regardless of sector, budget, objective and time period.

Our People

The Saudi Signs family is proud to have a multi-cultural pool of talent with various skills providing invaluable input both internally and for our partners.

Driving Change

Applying industry standards and progressing the sector forward to accommodate current & future market needs is at the forefront of our investments.

Commitment to Service

Our team is incredibly committed to supporting any and all requirements ensuring client communication investments are executed in a manner beyond expectations.

Flexibility

Affording our partners flexibility in regard to placement, artwork rotation, planning and requirements is practiced ensuring successful Out-of-Home communication

Consistency

Is a non-negotiable performance quality that is given our undivided attention. It's a highly held priority helping ensure standards are met and improved.

Communication Needs Met

Whatever the communication requirement, our team will do its utmost to accommodate so to best support the successful launch and promotion of your brands campaign

Bespoke Distribution

Enjoy the ability to choose specific panel locations most suitable for your communication based on business insights.

Daypart Capability

Contextualize messaging helping it become more relatable to your audience by either day parting (mornings, afternoon, evening) or week-part (weekdays and weekends) methods.

Dynamic Creative

Utilize multiple ad copies with pre-agreed exposure times to fully communicate details about your brands promotion, service or identity.

Variety & Placement

From indoor to outdoor locations, digital to static, inner city or highways the variety and various placement of our products is both undeniably rich and diverse.

Market Presence

Jeddah

Leading the Kingdom in large and mid-sized formats designed to create impact, Jeddah's city landscape is providing advertisers with the latest quality formats ensuring exposure and solid brand presence.

Riyadh

The Kingdom's capital has become home to the richest digital format distribution networks providing incredible outdoor & indoor options guaranteed to make a mark and lasting impression on local consumers.

Greater Damman

Dammam, Khobar and Dhahran are home to a region that is now experiencing changes in the OOH offering by witnessing fast paced digital format adoption. No shortage of ongoing efforts to digitize the eastern province.

Rural Cities

Beyond the 3 main cities, Saudi Signs Media ensures presence for advertisers in Hail, Al Qurayyat and Arar.

Riyadh

Riyadh Overview

A Brief Background

Saudi Arabia's capital city **Riyadh** is on the fast track of growth, development, and leadership in line with the objectives of Vision 2030.

An infinitely fast paced and growing metropolitan city welcoming both local and international tourists and businesspeople together, the city has become home to a diverse population.

Today, the capital is hosting numerous business, social and sporting events such as the Future Investment Initiative (FII), Riyadh Season, sector expos, business forums as well as Formula-E. In parallel, it's on track to become the Middle East hub of regional headquarters through its RHQ program.

The city landscape is vast with a growing urbanization plan supported by a large road network. Comprised of several major highways serving North/South as well as East/West traffic, Riyadh's grid system is expanding and so is the need for mobility in such a dynamic market.

From an Out-of-Home advertising front, advertisers can choose from 4 different outdoor formats.

Digital Bridges

Riyadh

Digital Bridges, Riyadh's **premiere out-of-home format** that has changed the city's communication approach are Installed on highway overpasses, underpasses, and pedestrian bridges located at major exits & junctions. They are **unique and unmatched** due to their size, distribution and sheer dominance on key road arteries. Stretching the entire width of oncoming lanes and/or highways in their entirety, Digital Bridges are **simply unmissable**.

Attributes:

- Premium faces only (no face B).
- In direct line of sight of motorists
- Visible from significant distances without obstruction
- Landscape orientated
- Day-part messaging capable

Exposure and Size:

- Booked as circuits (minimum 15 faces)
- 10 second ad per loop
- Operate for 20 hours per day
- Average panel size: 23.3 x 2.4 meters (w x h)

Inventory Quantity:

- 38 Locations
- 75 Faces

Digital Bridges

Riyadh

Riyadh's grid pattern urban layout naturally requires major and main highways so to connect neighboring vicinities and move traffic forward.

Said highways that are heavily used by the residents are accommodated with Digital Bridges that are situated at either major exits or junctions.

Below are the quantities of locations, faces and estimate road distance covered from first to last point along each respected stretch.

Locations	Quantity	Road	Coverage
9 Locations	18 Faces	King Fahad Road	~17.6km
7 Locations	14 Faces	Eastern Ring Road	~11.6km
7 Locations	13 Faces	Northern Ring Road	~12.75km
6 Locations	12 Faces	Makkah Road	~15km
4 Locations	8 Faces	Prince Turki Road	~6.37km
3 Locations	6 Faces	King Khalid Road	~4.4km
2 Locations	4 Faces	King Salman Road	~2.11km
38 Locations	75 Faces	7 Roads

Digital Flagpoles

Riyadh

Digital Flagpoles, are Riyadh's go-to billboards located along various high traffic road arteries predominately **found in the northern, eastern, central and southern vicinities** of the city. Their free-standing nature along Riyadh's upgraded urban development backdrop has made them stand out incredibly well while ensuring effective **delivery of promotional content onto oncoming traffic lanes**.

Attributes:

- Visible from both main and service roads as well as adjacent buildings.
- Mounted above far right traffic lanes & highway islands
- Predominately located mid-stretch in-between on/off ramps of different highway exits
- Free from surrounding obstructions

Exposure and Size:

- Booked individually (per face)
- 10 second ad per loop
- Operate for 20 hours per day
- Average panel size: 9.7 x 5.1 meters (w x h)

Inventory Quantity:

- 16 Locations
- 18 Faces

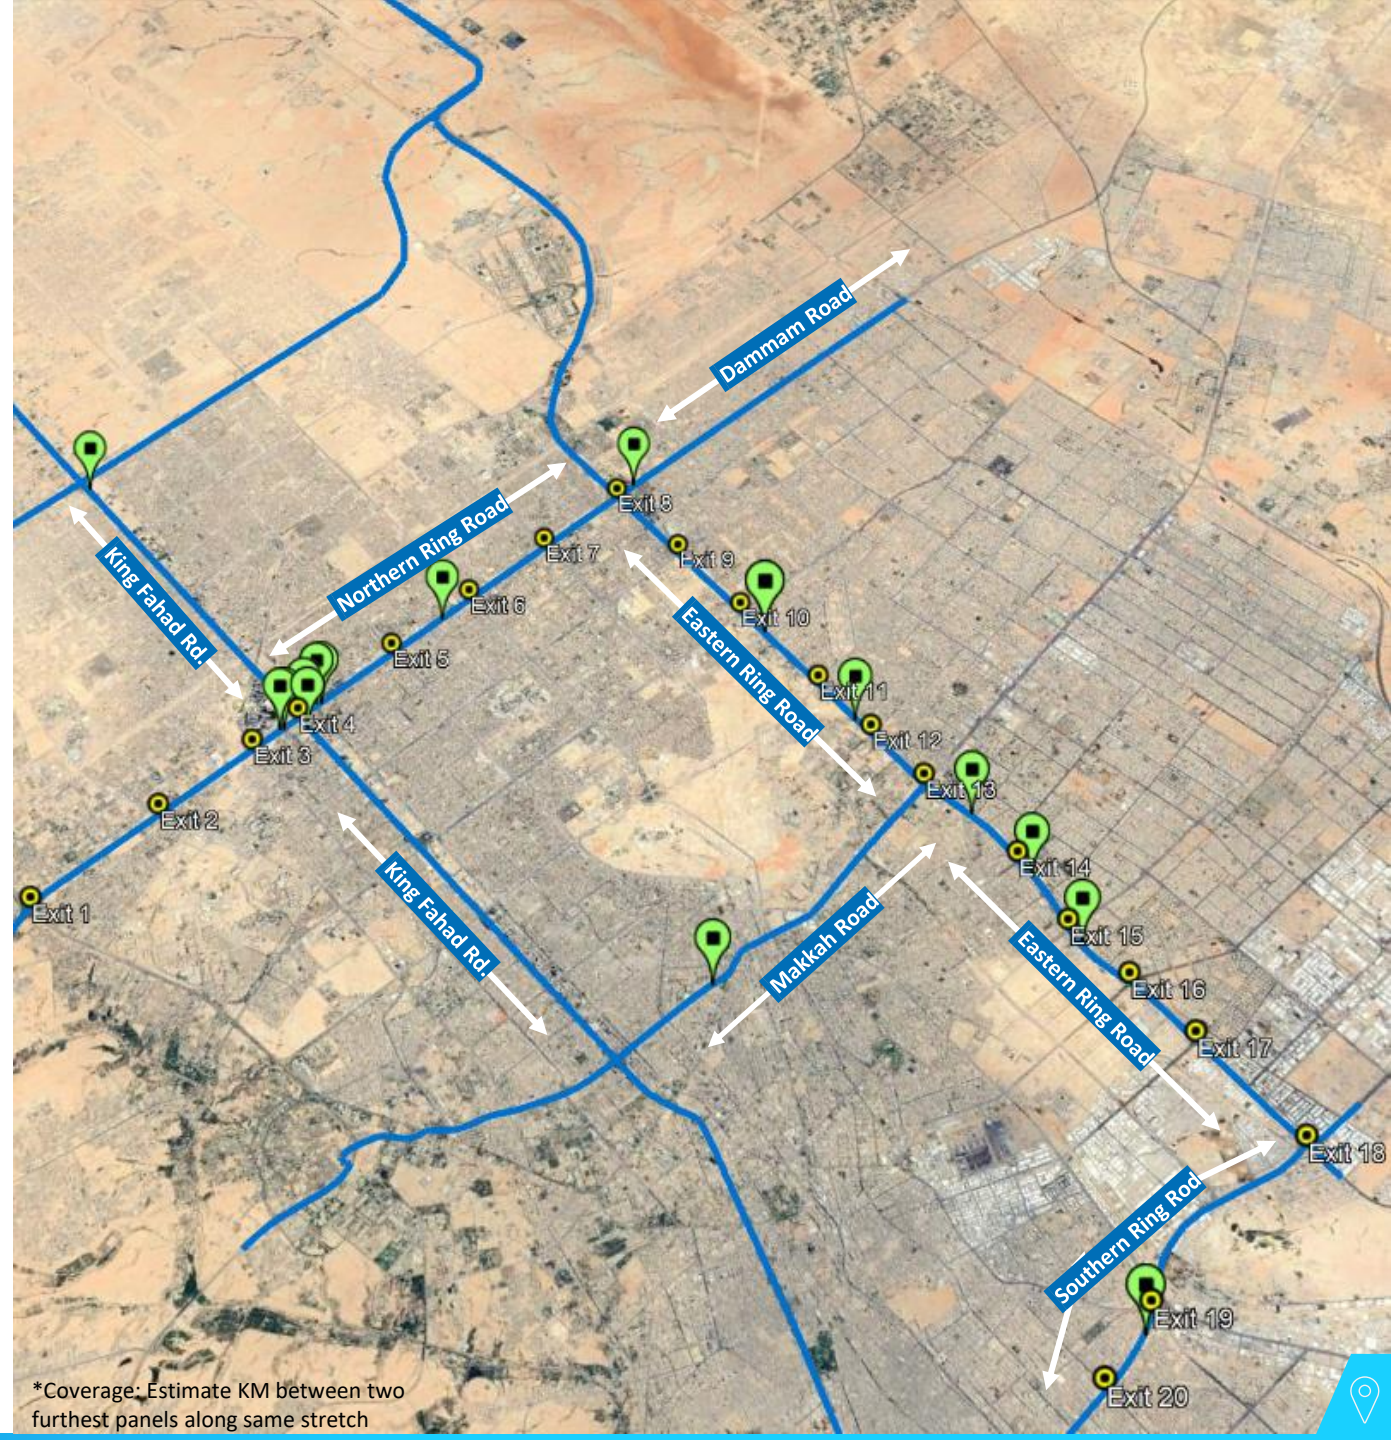

Digital Flagpoles

Riyadh

Situated at either major junctions or in-between exits, their locations are had on the borders of congested residential neighborhoods helping capture daily traffic as commuters go about their daily routines.

Below are the quantities of locations, faces and estimate road distance covered from first to last point along each respected stretch.

Locations	Quantity	Road	Coverage
6 Locations	6 Faces	Northern Ring Road	~9.26km
5 Locations	5 Faces	Eastern Ring Road	~9.5km
3 Locations	4 Faces	King Fahad Road	~8km
1 Locations	2 Faces	Makkah Road	~
1 Location	1 Face	Southern Ring Road	~
16 Locations	18 Faces	5 Roads

Static Flagpoles

Riyadh

This medium was and continues to be **the original billboard** found along major city road arteries in Riyadh. Static in nature, these Flagpoles are located on high traffic routes in significant quantities and is predominately located in northern, eastern and southern vicinities of the city. **Its static nature instills and establishes awareness thanks to a brands ability to enjoy 100% share of voice** throughout the booked period and capitalizes on repeated exposure had by motorists during routine commutes.

Attributes:

- Visible from both main and service roads
- Mounted above far right traffic lanes & highway islands
- Predominately located mid-stretch in-between on/off ramps of different highway exits
- Accommodates artwork protrusions

Exposure and Size:

- Booked individually (per face)
- 100% share of voice
- Backlit and visible 24/7
- Average panel size: 9.54 x 4.55 meters (w x h)

Inventory Quantity:

- 24 Locations
- 48 Faces

Static Flagpoles

Riyadh

Static Flagpoles, similar to their Digital counterparts are predominately located along the Northern and Eastern Ring Roads in addition to 4 other road arteries. The traffic experienced on these stretches is incredibly high.

Providing advertisers with a rarity across Riyadh, Static Flagpoles grant brands 100% share of voice due to their static nature.

Below are the quantities of locations, faces and estimate road distance covered from first to last point along each respected stretch.

Locations	Quantity	Road	Coverage
11 Locations	22 Faces	Eastern Ring Road	~20.9km
8 Locations	16 Faces	Northern Ring Road	~14km
2 Locations	4 Faces	Southern Ring Road	~2km
1 Location	2 Faces	King Fahed Road	-
1 Location	2 Faces	Airport Road	-
1 Location	2 Faces	Thumamma Road	-
24 Locations	48 Faces	6 Roads
